

A SENTENCE OF DEATH

for the Soviet Union in a bid for power in the Middle East.

Back in 1940 I attended a party in the Waldorf Astoria. The purpose of the party was to celebrate the murder of old Leon Trotsky. I myself was in a fairly happy mood at the party. The bumping-off of Leon Trotsky was one of the best pieces of good riddance ever done on God's footstool. The man was an utter monster, a Jew who wanted to destroy the Gentile nations of the earth by keeping them in a constant uproar of revolution. Trotsky had tried to destroy Russia in this fashion, and had been booted out by Stalin to prevent him from doing so. He thereupon came to America and laid the foundation of the Trotskyite revolution which is tearing this nation apart today. Stalin wished to make sure that Trotsky would never come back to Russia. Trotsky was sent to his eternal reward by a taciturn Stalinist hood who planted an ax in his ugly head in a villa in Mexico.

When the news of Trotsky's demise reached New York, all of the good Jew-Marxists went into mourning. The Stalinists celebrated. Those present at the party in the Waldorf-Astoria were not Jews. They were all WASPS. They were all rich. They all had Groton-Harvard accents. They knew the name of the game all the way. Some sweet day perhaps the Jews will learn better than to associate with rich WASPS, even those who call themselves "Marxists." The Jews should study the works of the Reverend Cotton Mather, who was an expert on WASP dealings with the Devil. Mather said that when WASPS pretend most assiduously to be doing the work of "Ye Lord," this is the very time when they are most eagerly doing the work of "Ye Devil." The Jews thought that they had bagged this pack of rich WASPS for their racket of enslaving America. Little they knew!

That day in 1940 one of the rich WASP Reds said to me, "Oh, to be sure, we'll back Israel after the war. And don't you know, there will be hell to pay among the Arabs! The Soviet Union will have to move in, of course. Israel will start as a plutocrat Republic sponsored by the American Jews, but eventually it will become the Palestine Soviet Socialist Republic, with equal rights for Arabs and Arab commissars."

Throughout World War II the WASP-Stalinists in America worked tirelessly for the strategic advantage of the Soviet Union. Eventually they attracted the attention of James V. Forrestal, Secretary of the Navy under Roosevelt. Forrestal in turn discussed the matter with Senator Joe McCarthy. McCarthy thought that "mistakes" were being made in U.S. policy.

Forrestal said, "McCarthy, consistency has never been a mark of stupidity. If they were merely stupid they would occasionally make a mistake in our favor."

The Stalinists seldom made any mistakes of any kind. They were the Elite of world politics from the 1930's onward. They played the **power game** around the clock, and all around the world; they also played it tirelessly and with consummate skill. They almost always won. The cause they were promoting was NOT Communism; it was RUSSIANISM. Thus the anti-Communists of the West were always baffled by them. They did not promote successful Communist revolutions in other countries outside Russia; on the contrary, they always scuttled such revolutions. They went into Spain to help the Spanish Republic in the Spanish civil war of the 1930's; they sabotaged and scuttled it completely, made sure that it would lose, made sure that Franco would win. They sabotaged Communism in China, in Germany, in Hungary. Stalin made the Communist parties of the earth into mere instruments of a nationalistic Russian foreign policy. He knew that any revolutions which took place outside Russia would fall quickly under the in-

fluence of the American Jews. That, he did not want.

American Yids swarmed into Italy after World War II, determined to start a Communist Revolution there. They used the power of the U.S. Army. They used the U.S. taxpayer's money. They used the power of the State Department. And still they failed to bring off a Revolution in Italy. WHY?

There was opposition. The valiant, patriotic, and capable Secretary of the Navy James V. Forrestal, one of the greatest American patriots who ever lived, spent fifty thousand dollars of his own money **FIGHTING COMMUNISM** in Italy. He was fighting the Administration under which he served. Bernard Baruch warned him that his career would be ruined. Forrestal, like many others, never quite understood Stalinism. Stalin did not have to spend fifty thousand dollars, or even fifty kopecks, to head off the Communist Revolution in Italy. Stalin simply called in PAL-MIRO TOGLIATTI, and said, "NO REVOLUTION IN ITALY!" That settled the matter. Oddly enough, Josef Stalin and the American patriot Forrestal had the same goal exactly, to prevent a Communist Revolution in Italy. Forrestal wasted every dime of the \$50,000 he spent. He might as well have relaxed and kept his money in the bank. There was NOT to be any Communist Revolution in Italy. Stalin had spoken, and the Stalinists around the world obeyed. Stalin was nothing if not a grim disciplinarian. Disobey once, and you were no longer a Stalinist. Togliatti obeyed. He went back to Italy and fought the pushy American Yids who were trying to bring off a Communist Revolution in Italy. Togliatti got the Italian working stiffs under control and warned them against associating with "Trotskyites" from America. There were also highly-placed WASP-Stalinists in Washington, charming asses with the Groton-Harvard accent, who got the message from Stalin and scuttled the Washington-sponsored Communist Revolution in Italy.

I could have told Forrestal back in 1940 that there was no need to waste fifty grand heading off a revolution in Italy. It would never happen. Stalin's policy was to hold Communism to places which could be kept under the direct domination of the Red Army.

Stalin was always anti-Semitic; but this statement must be qualified. He was not anti-Semitic in the same way that Hitler was. Hitler damned anyone with "Jewish blood." If you had Jewish ancestors you were a Yid, no matter how you sliced it, and deserved a tour of Auschwitz. Stalin cared nothing about Jewish blood; he cared only about the Jewish culture. The Stalinists sought to recruit and subvert Jews. It was not only apostasy from the Jewish religion which they encouraged, but entire severance from all aspects of the Jewish culture. The Communist Kautsky expounded this policy: "The sooner Judaism disappears, the better it will be, not only for society, but for the Jews themselves." This remains the real policy of the U.S.S.R. toward Jews to this day; it does not persecute people for

having "Jewish blood." On the other hand, it does not endorse Zionism, either.

A recent editorial in the newspaper **IZVESTIA** in Moscow said, "Zionism is one of the forms of Fascism, first of all, because such is its nature, such is the ideology and policy of the Big Jewish Bourgeoisie, which has established in Israel an open terrorist dictatorship of the most reactionary, most chauvinist and most imperialist elements of finance capitalism . . . Zionism abides by the very same cruel race theory adopted by the German Fascists, with the only real difference that they regarded the Germans as racially superior to all other nations, particularly the Jews, whereas Zionism considers the Jews to be the superior race, as distinct from all the gentiles."

Izvestia adds: "Characteristically enough, American Zionist gangs maintain the closest relations with the ultra right and openly Fascist organizations in that country." You had better believe that too. Half of the braying asses who gallop around the American landscape howling that they are "Fighting Communism" are on the Zionist payroll.

In fact, we Americans are caught in a CUL-DE-SAC. We are committed to Zionist policies which are not only morally corrupt but which have been astoundingly bungled. The Soviet Government planned as long ago as 1940 to bring about the very situation which exists in the Middle East today. The Soviet Government moved with sure-footed skill, with incomparable statesmanship, to bring about the capture of the Middle East and the vitally important shipping route between Suez and Singapore. The dunderheads of American Zionism walked into the trap like country bumpkins being swindled by a con man at the County Fair. Now the jaws of the trap have sprung.

There remains the question of why so many highly-placed Americans betrayed their own country during the last thirty years. The general assumption is that they "Believed in Communism." Few of them did. Actually, they simply saw that America under Jewish rule was sliding downhill, and was on the way down and out. They wanted to get in on the winning side. When Whitaker Chambers broke with the Stalinists, he said to his wife, "Darling, we are leaving the winning side for the losing side." There was quite a lot of traffic in the other direction. The most intelligent of the Groton-Harvard sort of WASPS saw forty years ago the ignominy of today, when the U.S.A. is the world's largest Jewish colony, and its native population struggles feebly under the Jewish yoke. The thing which attracted them was not Marxism but the mass-dynamism of the "DARK MASSES" of Russia, the last authentic store of primitive vitality left in the world, the one thing the snotty WASP-Stalinist intellectuals believe could defeat the Jews.

At the party in 1940, celebrating the murder of Leon Trotsky, there was a certain Mr. H. Mr. H. dripped with Harvard accent. He was rich. He was a gentleman. Much later, he was exposed as a "Communist." The whole Jewish Establishment rushed to defend him. Perhaps they wouldn't have rushed so fast if they could have seen Mr. H. at that party celebrating the demise of Trotsky. There was a popular song current at that time, taken from Walt Disney's movie **THE THREE LITTLE PIGS**. The hunter in the song went hunting one fine day, and his bullets were made of lead; it was bing-bing-bing and bang-bang-bang, and the big bad wolf was dead.

Mr. H. adapted this tune to celebrate the demise of Trotsky at the hands of the ax-swinging Stalinist hood:

IT WAS BASH-BASH-BASH,
AND WHACK-WHACK-WHACK
AND THE DIRTY LITTLE JEW WAS
DEAD!

At this party there was nobody present except us WASPS. The matter confirmed Bernard Baruch's judgment that "A kike is a Jewish gentleman who has just left the
